Journal of Bioenergetics and Biomembranes (1976), **8**, 313–315

Author Index for Volume 7

BACHOFEN, Reinhard. *Bound ATP in Chloroplast Membranes: Formation and Effect of Different Inhibitors on the Labeling* . 51
BARR, R. *The Effect of Chaotropic Agents on Photosynthetic Reactions* 123
BRADY, C.J. *Factors Limiting Mitochondrial Respiration in Media of High Solute Content* 189
BRAGG, P.D. *The Role of Lipid on the Energy-Dependent Transhydrogenase Systems of Escherichia coli* 175
CAMPBELL, L.C. *Factors Limiting Mitochondrial Respiration in Media of High Solute Content* 189
CHMIELIAUSKAITE, V. *Conversion of Escherichia coli Cell-Produced Metabolic Energy into Electric Form* 15
CRANE, F.L. *The Effect of Chaotropic Agents on Photosynthetic Reactions* 123
CURATOLA, Giovanna. *Perturbation of Membrane Fluidity* . . . 223
DERVARTANIAN, D.V. *EPR Studies on Cytochrome Components in Phosphorylating Particles of Azotobacter vinelandii* 215
DZHEJA, P. *Conversion of Escherichia coli Cell-Produced Metabolic Energy into Electric Form* 17
GRINIUS, L. *Conversion of Escherichia coli Cell-Produced Metabolic Energy into Electric Form* 17
GRINIUVIENE, B. *Conversion of Escherichia coli Cell-Produced Metabolic Energy into Electric Form* 17
HIGASHIDA, Mitsuhiro. *Regulation of Electron Transport in Isolated Chloroplasts by Sequential Binding of Adenine Nucleotides to the Coupling Factor Protein* 91
HILLAR, M. *Correlation of the Effects of Citric Acid Cycle Metabolites on Succinate Oxidation by Rat Liver Mitochondria and Submitochondrial Particles* 1
HILLMAN, K. *Deaggregation of Mammalian Cytochrome-c Heme Undecapeptide* 139
HONNAPPA, G.V. *Respiratory and Calcium-Accumulating Properties of Muscle Mitochondria of Some Aquatic Arthropods* . . 149
JARVISALO, J.O. *Change of Mitochondrial Buffering Capacity Induced by Propranolol* 39

JAYARAMAN, J. *Respiratory and Calcium-Accumulating Properties of Muscle Mitochondria of Some Aquatic Arthropods* . . 149
KAUFFMAN, H.F. *EPR Studies on Cytochrome Components in Phosphorylating Particles of Azotobacter vinelandii* 215
KONSTANTINOV, Yri Michailovich. *The Possible Role of Palmitoyl-CoA in the Regulation of the Adenine Nucleotides Transport in Mitochondria Under Different Metabolic States* . 77
KRAUSZ, L.M. *Deaggregation of Mammalian Cytochrome-c Heme Undecapeptide* 139
LENAZ, Giorgio. *Perturbation of Membrane Fluidity* 223
LENNOX, B. *Correlation of the Effects of Citric Acid Cycle Metabolites on Succinate Oxidation by Rat Liver Mitochondria and Submitochondrial Particles* 1
LOTT, V. *Correlation of the Effects of Citric Acid Cycle Metabolites on Succinate Oxidation by Rat Liver Mitochondria and Submitochondrial Particles* 1
LUND, Trevor. *Electron Spin Resonance of Some Bacterial Respiratory Membranes* 161
LYAKHOVICH, Valentinovich. *The Possible Role of Palmitoyl-CoA in the Regulation of the Adenine Nucleotides Transport in Mitochondria Under Different Metabolic States* 77
MALVIYA, A.N. *Reducibility of Cytochrome b in Mitochondrial Inner Membrane* 201
MASOTTI, Lanfranco. *Perturbation of Membrane Fluidity* . . . 223
MATSUNO, Akemi. *Regulation of Electron Transport in Isolated Chloroplasts by Sequential Binding of Adenine Nucleotides to the Coupling Factor Protein* 91
MELVYDAS, V. *Conversion of Escherichia coli Cell-Produced Metabolic Energy into Electric Form* 17
MUKOHATA, Yasuo. *Regulation of Electron Transport in Isolated Chloroplasts by Sequential Binding of Adenine Nucleotides to the Coupling Factor Protein* 91
Inhibition and Uncoupling of the ADP-Regulated Electron Transport in Isolated Chloroplasts 103
Electron Transport Coupled to Quasi-Arsenylation in Isolated Chloroplasts 111
OZAWA, Takayuki. *Reducibility of Cytochrome b in Mitochondrial Inner Membrane* 201
PANOV, Alexandr Vasiljevich. *The Possible Role of Palmitoyl-CoA in the Regulation of the Adenine Nucleotides Transport in Mitochondria Under Different Metabolic States* 77
PFLUGSHAUPT, Christian. *Bound ATP in Chloroplast Membranes: Formation and Effect of Different Inhibitors on the Labeling* . 51
RAISON, J.K. *Factors Limiting Mitochondrial Respiration in Media of High Solute Content* 189

RAYNOR, J. Barrie. *Electron Spin Resonance of Some Bacterial Respiratory Membranes* 161
ROTTENBERG, Hagai. *The Measurement of Transmembrane Electrochemical Proton Gradients* 63
SINGH, A.P. *The Role of Lipid in the Energy-Dependent Transhydrogenase Systems of Escherichia coli* 175
SOROKIN, E.M. *Kinetic Properties of Prompt and Delayed Fluorescence of Chlorophyll a with λ_{max}= 685 nm when Electron Transport in Isolated Chloroplasts* 167
SUGIYAMA, Yasuo. *Regulation of Electron Transport in Isolated Chloroplasts by Sequential Binding of Adenine Nucleotides to the Coupling Factor Protein* 91
Inhibition and Uncoupling of the ADP-Regulated Electron Transport in Isolated Chloroplasts 103
SULOCHANA, R. Hannah. *Respiratory and Calcium-Accumulating Properties of Muscle Mitochondria of Some Aquatic Arthropods* . 149
TAKAHASHI, Yohei. *Reducibility of Cytochrome b in Mitochondrial Inner Membrane* 201
VAN GEIDER, B.F. *EPR Studies on Cytochrome Components in Phosphorylating Particles of Azotobacter vinelandii* 215
WAINIO, W.W. *Deaggregation of Mammalian Cytochrome-c Heme Undecapeptide* 139
WAMPLER, J. *EPR Studies on Cytochrome Components in Phosphorylating Particles of Azotobacter vinelandii* 215
YAGI, Kunio. *Reducibility of Cytochrome b in Mitochondrial Inner Membrane* 201
YAGI, Takao. *Regulation of Electron Transport in Isolated Chloroplasts by Sequential Binding of Adenine Nucleotides to the Coupling Factor Protein* 91
Inhibition and Uncoupling of the ADP-Regulated Electron Transport in Isolated Chloroplasts 103
Electron Transport Coupled to Quasi-Arsenylation in Isolated Chloroplasts 111

Journal of Bioenergetics and Biomembranes (1976) 8, 317–319

Author Index for Volume 8

ASAI, H. *Enzymatic Hydrolysis of ATP and e-ATP by F-actin* . . 239
ASAI, M. *Enzymatic Hydrolysis of ATP and e-ATP by F-actin* . . 239
ASANO, Masahisa. *Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex I. Isolation and Some Properties of Mitochondria from the Zona Glomerulosa of the Bovine Adrenal Cortex* . . 27
Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex II. Distribution of Cytochrome P-450 in the Zona Glomerulosa of the Bovine Adrenal Cortex 55
AZZI, Angelo. *Probes for Energy Transduction in Membranes* . . 257
BANASZAK, Janet. *Evidence for Multiple Sites of Ferricyanide Reduction in Chloroplasts* 83
BARR, Rita. *Evidence for Multiple Site of Ferricyanide Reduction in Chloroplasts* 83
BRADY, C.J. *The Response of Plant Mitochondria to Media of High Solute Content* 121
CAMPBELL, L.C. *The Response of Plant Mitochondria to Media of High Solute Content* 121
CRANE, Frederick L. *Evidence for Multiple Sites of Ferricyanide Reduction in Chloroplasts* 83
ELLIOTT, W.B. *Evidence for the Presence of Di- and Triphospho Pyridine Nucleotide Dehydrogenase Derivatives as Consistent Contaminants of Purified Beef Heart Cytochrome-c Oxidase* . 271
ESTRADA-O, Sergio. *Charge Transfer Mediated by Nigericin in Black Lipid Membranes* 19
FERRARESE, V. *On the Mechanism of Action of Oligomycin and Acidic Uncouplers on Proton Translocation and Energy Transfer in "Sonic" Submitochondrial Particles* 131
GOMEZ-LOJERO, Carlos. *Charge Transfer Mediated by Nigericin in Black Lipid Membranes* 19
GUERRIERI, F. *On the Mechanism of Action of Oligomycin and Acidic Uncouplers on Proton Translocation and Energy Transfer in "Sonic" Submitochondrial Particles* 131
HEBER, U. *Energy Coupling in Chloroplasts* 157
HOCH, Frederic L. *Thyroid Hormone Action on Mitochondria IV. Redox States of Intrinsic Pyridine Nucleotides in Hypothyroid-*

© 1976 Plenum Publishing Corporation, 227 West 17th Street, New York, N.Y. 10011. ism, and Influence of L-Thyroxine 223
KIMURA, Hiroshi. *Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex II. Distribution of Cytochrome P-450 in the Zona Glomerulosa of the Bovine Adrenal Cortex* 55
KONDRASHIN, A.A. *Functional Role of Soluble Mitochondrial ATPase Subunits* 1
KONONENKO, V.A. *Functional Role of Soluble Mitochondrial ATPase Subunits* 1
KOZLOV, I.A. *Functional Role of Soluble Mitochondrial ATPase Subunits* 1
KURONO, Chieko. *Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex II. Distribution of Cytochrome P-450 in the Zona Glomerulosa of the Bovine Adrenal Cortex* 55
Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex I. Isolation and Some Properties of Mitochondria from the Zona Glomerulosa of the Bovine Adrenal Cortex 27
LORUSSO, M. *On the Mechanism of Action of Oligomycin and Acidic Uncouplers on Proton Translocation and Energy Transfer in "Sonic" Submitochondrial Particles* 131
MELANDRI, A. Baccarini. *Coupling Factors ATPases from Photosynthetic Bacteria* 109
MELANDRI, B.A. *Coupling Factors ATPases from Photosynthetic Bacteria* 109
METELSKY, S.T. *Functional Role of Soluble Mitochondrial ATPase Subunits* 1
MICHAELIS, G *Genetic Analysis of Mitochondrial Biogenesis and Function in Saccharomyces cerevisiae* 19
MONTAL, M. *Charge Transfer Mediated by Nigericin in Black Lipid Membranes* 93
MONTECUCCO, Cesare. *Probes for Energy Transduction in Membranes* 257
MUKOHATA, Yasuo. *Adenylate Regulation of Photosynthetic Electron Transport and the Coupling Sites of Phosphorylation in Spinach Chloroplasts* 247
OZAWA, Takayuki. *Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex II. Distribution of Cytochrome P-450 in the Zona Glomerulosa of the Bovine Adrenal Cortex* 55
PANSINI, A. *On the Mechanism of Action of Oligomycin and Acidic Uncouplers on Proton Translocation and Energy Transfer in "Sonic" Submitochondrial Particles* 131
PAPA, S. *On the Mechanism of Action of Oligomycin and Acidic Uncouplers on Proton Translocation and Energy Transfer in "Sonic" Submitochondrial Particles* 131
PENNIALL, Ralph. *Evidence for the Presence of Di- and Triphospho Pyridine Nucleotide Dehydrogenase Derivatives as Consistent*

Contaminants of Purified Beef Heart Cytochrome-c Oxidase . 271
RAISON, J.K. *The Response of Plant Mitochondria to Media of High Solute Content* 121
ROWOHL-QUISTHOUDT, G. *Influence of Surface Potentials on the Mitochondrial H^+ Pump and on Lipid-Phase Transitions* . . 73
SCHAFER, G. *Influence of Surface Potentials on the Mitochondrial H^+ Pump and on Lipid-Phase Transitions* 73
SELMAN, Bruce R. *Phenylenediamine Restoration of Photosynthetic Electron Flux in DBMIB-Inhibited Chloroplasts* 143
SOMLO, M. *Genetic Analysis of Mitochondrial Biogenesis and Function in Saccharomyces cerevisiae* 93
TORO, Mireya. *Charge Transfer Mediated by Nigericin in Black Lipid Membranes* 19
VAN BUUREN, K.J.H. *Evidence for the Presence of Di- and Triphospho Pyridine Nucleotide Dehydrogenase Derivatives as Consistent Contaminants of Purified Beef Heart Cytochrome-c Oxidase* 271
VAN GELDER, B.F. *Evidence for the Presence of Di- and Triphospho Pyridine Nucleotide Dehydrogenase Derivatives as Consistent Contaminants of Purified Beef Heart Cytochrome-c Oxidase* 271
VIGNAIS, P.V. *The Mitochondrial Adenine Nucleotide Translocator* 9
VILLAR, Jean-Guy. *Photoelectrochemical Effects in the Electrolyte–Pigment–Metal System.*
I. Metal-Free Phthalocyanine Film: Description of Short-Circuit Photocurrents for Thin Films of Pigment 73
II. Metal-Free Phthalocyanine Film: Action Spectra of Short-Circuit Photocurrents with Increase of the Film Thickness . 189
III. Chlorophyll Films: Short-Circuit Photocurrent Transients; Light Energy Conversion Efficiency 199
WAKABAYASHI, Takashi. *Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex. I. Isolation and Some Properties of Mitochondria from the Zona Glomerulosa of the Bovine Adrenal Cortex* 27
Steroidogenesis in the Zona Glomerulosa of the Adrenal Cortex. II. Distribution of Cytochrome P-450 in the Zona Glomerulosa of the Bovine Adrenal Cortex 55
WANG, Jui H. *Chemical Models of Oxidative Phosphorylation* . . 209
WOJTCZAK, Lech. *Effect of Long-Chain Fatty Acids and Acyl-CoA on Mitochondrial Permeability, Transport, and Energy-Coupling Processes* 293
YAGI, Takao. *Adenylate Regulation of Photosynthetic Electron Transport and the Coupling Sites of Phosphorylation in Spinach Chloroplasts* 247
